To Whom It May Concern,

I am writing this letter to recommend Casey Adams on any future endeavors he pursues. I met Casey after he responded to a newspaper article that was written about the assistance we provided to the public through our nonprofit work. Casey reached out, and several times helped countless elderly and mentally disabled community members during the COVID-19 epidemic.

After realizing Casey's work ethic, dependability, and the asset he could be to benefit our nonprofit, we took him up on his offer of building our nonprofit a website from scratch. Casey continues to manage our site today and offer guidance on how new initiatives are being released via the website and media platforms.

Casey's genuine love for people, his desire to do things wholeheartedly and his finished work is incomparable to others in his field. Casey would be an asset to any team he joins. If there is any additional questions you may have, please feel free to contact me at the above information.

Sincerely,

Whitney Budd, President
